

Ready to bring emerging talent onto your team?

Climate Corps is a bridge-to-career fellowship program of Strategic Energy Innovations (SEI) that adds **cost-effective, mission driven, and easily deployed staff capacity** to municipalities, private industry, nonprofits, and academic institutions while helping emerging sustainability professionals gain a foothold in the climate sector.

We Provide our Partners:

- Recruiting, Hiring, & Employer of Record (Compensation, Benefits, other associated costs)
- Fellow Training & Supervision
- Project Scoping & Implementation Consulting

We Provide our Fellows:

- Monthly Trainings & Peer Cohort
- College Credit & Climate Protection Certificate
- Networking & Professional Development Opportunities
- Substantive Role with Meaningful Outcomes

<p><i>*AmeriCorps is offered in partnership with the nonprofit Bay Area Community Resources (BACR) and is subsidized to offer municipal and nonprofit partners a discounted option. AmeriCorps Fellows cannot grant write or fundraise and receive a lower monthly stipend.</i></p>	

“For SunPower, we have a rigorous, timely process for hires and Climate Corps makes it easy for us. As we continued to work with Climate Corps, we realized that they can find really qualified candidates in many different areas from marketing to finance to engineering and project management.”

– Renee Solari, **SunPower** (Climate Corps partner since 2014)
